ROLLBACK TRAILER

TKRB

TRAIL KING
DEPENDABLE PERFORMANCE. EVERY HAUL. EVERY DAY.

TRAIL KING
CONSTRUCTION
ROLLBACK

BUILT RIGHT. BUILT RUGGED.

DEPENDABLE PERFORMANCE.

STANDARD FEATURES

Adjustable Pintle Hitch

To accommodate a wide variety of towing vehicles, Trail King rollback trailers come with an adjustable 4-bolt pintle hitch.

Roller Track

The roller track allows the deck to roll back in a smooth, even motion with no binding — even when the deck is fully loaded.

Heavy Duty Jack

A 25,000-lb. single 2 stage heavy-duty drop-leg jack is standard equipment on all Trail King rollback models.

Adjustable Bed Lock

Bed lock mechanism keeps the deck from accidentally rolling back while in the transport position and, because it is adjustable, always ensures a snug, secure closure.

Toolbox

Covered, lockable toolbox is conveniently located at the front of the trailer and is large enough to store all your chains and tools.

Protected Electrical System

Trail King rollback trailers feature rubber grommets wherever wiring runs through the frame or cross members, and rubber-mounted, shock-proof, sealed lights for longer, trouble-free, low-maintenance performance life.

** SCU and winch options available*

Heavy Duty D-Rings

Trail King includes heavy-duty 6" drop forged D-rings as standard equipment — not optional, as is the case with many manufacturers — so your rollback trailer is ready to secure even the toughest of loads.

Safety Headboard

The 4" safety headboard provides an extra dimension of safety and load-hauling security.

Axles, Wheels, and Tires

Truck-type axles and wheels, oil seal hubs, and radial tires are standard. You get the right equipment for the job, less down time and maintenance, and a long service life.

* To meet 1997 Federal requirements, Trail King offers two variations of the anti-lock braking system. The minimum 2S1M system is available, but Trail King recommends the 4S2M system.

Products shown may feature optional equipment. Available specifications are subject to change without notice.

BIG TRAILER ADVANTAGES. SMALLER SIZE.

Trail King's Rollback trailer is outfitted with the highest quality materials for increased durability and capacity.

The continuous I-beam mainframe and I-beam cross members provide load hauling strength. With a constant 7 degree load angle for the entire length of the trailer bed, the TKRB provides a stress-free, safe and convenient operation for loading equipment.

**Invest in a Trail King Rollback trailer
for dependable performance.
Every Haul. Every Day.**
