TILT UTILITY TRAILER

## LOOKING FOR MORE?

Navigate to [www.trailking.com](http://www.trailking.com), and click on the SOLUTIONS tab. Each product page includes specifications, video, literature, images, services information and our official color card.

## Oak Decking

All models come with 1.5" nominal oak decking that is double screwed to crossmembers to prevent cupping.

## STANDARD FEATURES

### Safety Headboard

The safety headboard provides extra dimension of safety and load-hauling security.

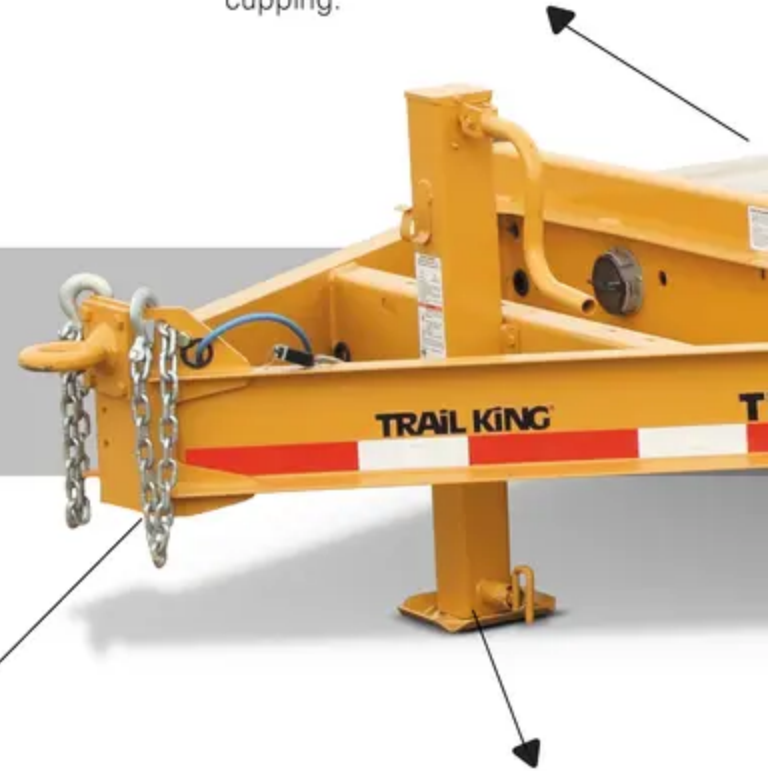

### Adjustable Hitch

Accommodate a wide variety of towing vehicles with an adjustable 4-bolt hitch, rated for the full GVWR of the trailer.

### Toolbox

Spacious toolbox spans the entire width of the tongue area for enough room to store all your chains and tools. Optional lockable tool box lid available.

### Drop Leg Jack

Bolt-on 12,000-lb jack with drop leg.

### Safety Chains

Heavy-duty safety chains with GVWR-rated grab hooks are built tough for years of dependable service.

### Break-Away System

The lighted read-out break-away system monitor provides easy and convenient monitoring of the charge status.

# SMART CONSTRUCTION. BUILT TO LAST.

Designed to haul medium duty, low profile equipment, Trail King's Tilt Utility trailer is the highest quality and dependable tilt bed on the market. Built to fulfill a variety of hauling activities, this trailer has an extremely low deck height for easy access and a superior fit and finish.

**Commit to a product that can stand up to the daily challenges you face.**

## Popular Options

- 22' Deck (6' stationary/16' tilt)
- Bolt on heavy duty fenders
- Bolt on spare tire carrier
- Lockable Toolbox
- Apitong Decking

@trailkingind

### Heavy-Duty Bent D-Rings

Forged D-rings to handle even your toughest hauling requirements.

### I-Beam Crossmembers

Full width I-beam crossmembers are used to provide maximum load bearing strength. Zinc-rich primer is completed prior to adding the deck to provide corrosion resistance in unseen areas.

### Axles, Tires, Fender

Torflex axles, 8-hole wheels, and radial tires deliver a smooth ride, long service life, and attractive appearance.

### Platform Lock

Keep your deck from accidentally tilting while in the transport mode with the platform lock mechanism and safety lock pin.

### Platform Cushioning Cylinders

Single platform cushioning cylinders make loading and unloading a smooth operation.

### Recessed Dot Lights

Recessed lights at the rear are long-lasting and provide improved safety and visibility.

11° TILT

### Approach Plate

The main deck tilts to an 11° load angle, and features star traction material on the approach plate and recessed lights that are protected during the loading/unloading process.
